

Operation

Yuck

I drove into the centre of town
To find a place that I can settle down
I just got back from a minor operation
I just got out but I didn't go right to you I want to be well designed
I want to be well designed
Cause you talk
And I just feel so I lie in bed cause I feel so low
I try to think but I just don't fuckin' know I type a thing to the rhythm of your heart?
And when you die I'll take it back to the start I want to be well designed
I want to be well designed
Cause you talk
And I just feel so I want to be well designed
I want to be well designed
'Cause you talk
And I just feel so
