Up And Running

Salmonella Dub

Oh, oh, oh, oh. (It's the runners)
Oh, oh, oh, oh. Yeah, yeah, yeah, yeah, yeah, yeah, yeah, eah.
Now lemme' tell you boy,
i'm a little something more to deal with.
Don't play me like a toy, better come with the realness. Aye.
Don't wanna' test me out, don't wanna hear this engine roar.
You're gonna love when i come around,
you've never seen it like this before.
You better be coming with the premium. (aye, aye.)
That's the way to make this one a dream to run.
This right here's a classic, you gon' have to have it.
If we get it running we can party till the sun comes.
If you're in love make sure you've got enough oh-oh,
on your marks get ready,set, oh we're going,
all through the night. (til the night)
come on let's get it up and running, up and running.
i want you to take me out there,
come on let's get it up and running,
party till the morning sun.
Oh, oh, oh, oh. (hey) Oh, oh, oh, oh.
Now listen to me closely, if you want me to roll your way.
See there's a place to go baby boo, cause i handle slightly differently, hey.
This ain't no lock and key situation, you gotta push the right button to start.

And if you find the right combination, you're gonna' go pretty far.
You better be coming with the premium. (aye, aye.)
That's the way to make this one a dream to run.
This right here's a classic, you gon' have to have it.
If we get it running we gon' party till the sun comes up.
If you're in love make sure you've got enough oh-oh,
on your marks get ready,set, oh we're going,
all through the night. (til the night)
come on let's get it up and running, up and running.
i want you to take me out there,
come on let's get it up and running,
party till the morning sun.
So take me to your favorite spot, baby show me all the things that you got.
Cause i'm everything you're waiting for.
Come on let's get it up and running, up and running, up and running, up.

Come on let's get it up and running, party till the sun comes up.
If you're in love make sure you've got enough oh-oh,
on your marks get ready,set, oh we're going,
all through the night. (til the night)
come on let's get it up and running, up and running.
i want you to take me out there,
come on let's get it up and running,
party till the morning sun.
