

Clock

Coal Chamber

Clock tick tick tick, tick tock, tick tock
Clock tick tick tick, tick tock, tick tock
Clock tick tick tick, tick tock, tick tock Wicked mind you hold the hour
But my mind it holds the power Clock tick tick tick Where did the time go?
What do I have to show?
Watching the time fly
Watching the time fly Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears Where did the time go?
What do I have to show?
Watching the time go by
Watching the time fly Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears My time goes by so slow
My clock goes by so slow Come closer you can do better than me
Come closer you can do better than me
Come closer you can do better than me You can do better than me
You can do better than me
You can do better than me It counts my fears
It counts my fears
It counts my fears Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears Come closer you can do better than me
Come closer you can do better than me
Come closer you can do better than me
