

Sir Geoffrey Saved the World

Bee Gees

Every day's Saturday, feeling in steadily
Laughing at people with stars in their eyes
Vicker Hays approaching town, preaching in the underground
Talking with the lambs who came out of the sky
You know how Sir Geoffrey saved the world
You know how Sir Geoffrey saved the worldDinner time, anytime, see a crown, should be mine
Everyone's grabbing but no one will get
Sunny day, should I care, taking in the garden air
Everyone's happy though no one can see
You know how Sir Geoffrey saved the world
You know how Sir Geoffrey saved the worldYou know how Sir Geoffrey saved the world
You know how Sir Geoffrey saved the worldEvery day's Saturday, feeling in steadily
Laughing at people with stars in their eyes
Vicker Hays approaching town, preaching in the underground
Talking with the lambs who came out of the skies
You know how Sir Geoffrey saved the world
You know how Sir Geoffrey saved the world
You know how Sir Geoffrey saved the world
