

# Happy Anniversary (feat. Marc Terenzi)

[Sarah Connor](#)

Since you came along, my life has changed  
I'm no longer insecure  
You took away my pain, you showed me love  
Like I never knew before And though nothing's perfect  
Another year with you's been worth it  
And I thank God for you and me I believe in happily ever after  
There's no joy like the sound of your laughter  
It seems that God has send an angel to me  
And in your arms is where I always wanna be  
Happy Anniversary, Happy Anniversary Life has given us a most amazing  
And purest gift of love  
On your darkest days, I'll be the light  
To help you find your way And through the years we'll keep on going  
I'll love you till my final moments  
Forever's meant for you and me I believe in happily ever after  
There's no joy like the sound of your laughter  
It seems like God send an angel to me  
And in your arms is where I always wanna be  
Happy Anniversary, Happy Anniversary  
Happy Anniversary, Happy Anniversary
