Fly Away (feat. Emma Lock)

Shogun

I wanna fly away
I wanna fly away

Here we go again
Falling into some kind of dream
Where it's just you and me, a fantasy
Guess I just wanna be so close to you right now
Hideaway from the source within my head
Clouded by the reality
Taking me under your spell
Telling me different ways
Pushing me forward to the places I meant to be
It's not so easy
Take my heart
All that I need

I wanna fly away, fly away
I wanna fly away, fly away
I wanna fly away, fly away
I wanna fly away, fly away

I wanna fly away, fly away on your love
I wanna fly away, fly away on your love
I'm waiting for you right from the start
I wanna fly away

I wanna fly away, fly away on your love
I wanna fly away, fly away on your love
I'm waiting for you love
