## **She Loves Me**

## **Black Lab**

Creep down to the waterline you're twisting away The game is over you can't keep twisting away Buy myself a rose at the end of the day Please believe me you can't keep twisting awayShe loves me, she loves me not Whether, whether she knows it She loves me, she loves me not Whether, whether it's suicideShake the bottle out you're shaking it clean You shake, yeah you can't keep twisting away Crack me open do you know what I mean? You shake, shake you're twisting awayShe loves me, she loves me not Whether, whether she knows it She loves me, she loves me not Whether, whether it's suicideSlip outside of your mind Slip the far side over the ice Slide you're taking it on Slip I hope you're not already goneShe loves me, she loves me, she loves me not Whether, whether she knows it She loves me, she loves me not Whether, whether it's suicideShe loves me, she loves me not Whether, whether she knows it She loves me, she loves me not Whether, whether it's suicideSlip
