

2nd Win

Kierra Sheard

I know it might seem like your life is falling apart
But don't you know God's already working it out
There's strength in you, you were born to win
So don't quit now here comes your second winVerse
I know it may be hard to believe it
You cried so hard, your eyes are crimson
Pain in your life is overwhelming
If he did it before, he can do it againVerse
I know you can't believe what they have told you
They using words as rhymes trying to own you
They can't control your mind, they don't own you
You got to keep the faith like you're supposed toThey will overcome (repeat)
