With or Without Control

Sahara Hotnights

You've got a hold on me
You're messing up the screen
Thought it was a good idea
Dealing with the enemyI'm losing track of time
And every step's a mile
You kill expensive hours
And leave me here uncoveredBoy, you're really messing up my mindWith or without control
You've come to shake it all
Slow down, you've got me facing the wall
I keep moving on, on my ownAnd this is getting weird
You went straight to my head
Moving in circles
Spinning and sparkleBoy, you're really messing up my mindWith or without control
You've come to shake it all
Slow down, you've got me facing the wall
I keep moving on, on my ownCome on, come on, I'm waiting
For the end of the show
Come on, come on I'm trying hard
To keep you on holdWith or without control
You've come to shake it all
Slow down, you've got me facing the wall
I keep moving onWith or without control
You've come to shake it all
Slow down, you've got me facing the wall
I keep moving on, on my ownOn my own
