

# Careful In Career

## Simple Minds

Careful in career  
Take care, I take care  
It's a shame to go away  
It's a shame to die already Looking at you looking in through at me  
Pouring X years of life, pouring in ecstasy  
Performance or ecstasy I'm looking at you looking in through at me  
I've come so far already  
I've come so far already  
So far, I've come so far Careful in career  
Take care, I take care I see the lodgers they are walking  
Hands over my eyes  
I see you yawning, shambling  
Drugged up by the heat and so Looking at you, looking in through at me  
Pouring X years of life, pouring in ecstasy  
In performance or in ecstasy I'm looking at you, looking in through at me  
I've come so far already  
I've come so far already It's a shame  
Looking at you, looking in through at me  
All in ecstasy I've come so far already  
All in ecstasy  
I've come so far already  
All in ecstasy I've come so far already  
I've come so far  
I've come so far  
It's a shame, it's a shame  
Looking at you
