Biology

Jane Child

I'm attracted anatomically
Need to know you scientifically
Strange confusion has come over me
Need the fusion between you and meMother Natures legislature
Mother Nature takes her course
Gravitation of the nation
Gravitation to the sourceI'm distracted biologically
My attention dominating me
I'm a victim of divine design
I'm a victim of a one-track mindGut reaction, satisfaction
Gut reactions never lie
Need I mention my intention
Do I need an alibiIt happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biology
It happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biologyI'm defenseless, lacking all control
It's relentless, longing of my soul
I am driven, I'm completely yours
It's a given, I'll be back for moreIt's instinctive, so distinctive
And on that you may depend
Don't go mess with Mother Nature
She'll defeat you in the endIt happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biology
It happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biologyNeed I mention my intention
Are you willing to supply?
Gut reaction, satisfaction
Gut reactions never lieIt happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biology
It happens every time you're next to me, biology
Oh oh oh oh oh oh oh oh uh oh, biology
