Forced Labor

Circle Jerks

In a political state
Carries no weight
No consideration
Your future's at stakeYanked out of school
For a factory before you can read
Once the world's shoven down your throat
You'll find that it's hard to breathThey'll march you to work
In sickness or in health
You're never paid what you're worth
No family wealthSoon your wages
Support the state
Support the party
Then you'll scream
"Forget the C.W.P"Tell 'em for me
I'd kill to be free
Tell 'em for me
I'd kill to be freeNo religion to comfort your mind
The Communist Manifesto will be read all the time
When consumer products cease to exist
That's when the eastern blocks defectsTell 'em for me
I'll kill to be free
Tell 'em for me
I'd kick ass to be freeResist 'em communism
Resist 'em fascism
Resist 'em nazism
Resist 'em now
