

# Tarantula

## Smashing Pumpkins

I don't wanna fight every single night  
Everything I want is in your eyes  
You and me go back to places I don't know to care  
The spoils of all I got were left to scraps  
Don't let me say this  
But you're no worse than me  
It's crazy  
We all are real, if real ever was, just because  
We all feel, feel we've had enough  
We all are real 'cause someone gave us sound  
I wanna be there when you're happy  
I wanna love you when you're sad  
Can't stand the morning rain  
Get out and take your place then  
Can't stand the blazing sun  
Then close your eyes you'll see  
The angel dies  
I don't want to be anything for these  
A million watts of sound can't compare  
Come along you'll see the world  
The pulse ripples, the crowd unfurls  
The current starts to flow and then you're on  
  
Oh it's a white hot soul they want, sinful  
We all are real, if real ever was, it's just because  
We all are real, every living soul  
Yes I'm real 'cause someone gave us sound  
Don't break the oath  
I wanna love you when you're happy  
Don't break this oath  
I wanna be there when you're sad  
Please bring the pouring rain  
We all are real, as real as any ghost  
It's easy now  
I'm real, in every living soul God gave us  
Can't stand the blazing sun  
Can't stand the morning rain  
Get out and take your place again  
I don't wanna be alone

I don't wanna be alone  
I don't wanna be alone, alone  
If it's a white hot soul they want  
It's a black heart they'll get
