

Try Too Hard

Pink

One, two, three, four You follow every line
You wear your perfect patch and style
You're like a satellite
And you're drifting through the sky
You can't make up your mind about this or that
Or anything at all
You go with the flow and hope to God
That no one knows it Everything you are, everything you say
Everything you do is not for you
Everything you feel, everything you know
Found it on your favorite TV show And it's people like you that make me sick
I'm surrounded by you, everywhere I look You're telling everyone
How different that you really are
But it's been said before
So maybe you're not special after all
You put the same amount of effort
Into letting go
Just act yourself and you might like it
You never know 'Cause everything you want, everything you do
You try so hard to be everyone but you
Everywhere you turn, you just gotta learn
It's easier if you don't try so hard And it's people like you that make me sick
I'm surrounded by you everywhere I look
Is there somewhere I can go to get away?
Where there's truth and people mean just what they say You try too hard
You just try too hard
You try too hard
I'm surrounded by it everywhere I look
Is there some we can go to get away?
Where there's truth and people mean just what they say You try too hard
You just try too hard
