

# From la to Rome

Chester See

It's in your eyes  
And it's in your smile  
It's the way you kiss  
It's never been like this before  
It's the way you laugh  
And all the times we had  
It's the way you touch  
I've never loved so much before  
The phone calls I never want to end  
It's like I'm falling in love over and over again You're everything that my life's been missing  
And now I can't believe that this is happening to me  
Through the good and bad the happy  
And the sad you won't be away from home  
You'll never be alone  
from la to Rome Now with this ring  
I promise that I'll be  
Faithful and true devoted to you through it all  
And I'll gladly be your one and everything  
Right by your side, shoulder when you cry, if you fall  
And I love you more with everyday that ends  
It's like I'm falling in love over and over again You're everything that my life's been missing  
And now I can't believe that this is happening to me  
Through the good and bad the happy  
And the sad you won't be away from home  
You'll never be alone  
from la to Rome I couldn't dream a better life  
Without you right there by my side You're everything that my life's been missing  
And now I can't believe that this is happening to me  
Through the good and bad the happy  
And the sad you won't be away from home  
You'll never be alone, from la, la to Rome La to Rome  
La to Rome
