

Supernatural (Extended Mix)

KING

I should have walked away right from the very start, why did I stay?
Ten thousand tiny soldiers marching right through my heart couldn't keep me at bay
Oh, how fast I fell and now I'm under your spell, so tell me do you feel it too?[Chorus]There's magic in
everything you do, supernatural
I'm in love with everything 'bout you, and I wanna stay here[Verse 2]Tell me does it surprise you that behind
closed doors it's you I adore
I tried to fight but I've never been good with war, and it struck to the core
Oh, I love you still, always have, and always will
Believe me, I'll always tell the truth[Chorus]There's magic in everything you do, supernatural
I'm in love with everything 'bout you, oh I wanna stay here[Bridge]I often wonder why you're running circles
through my headâ€”I really wonder why you're running circles in my head, ohOh we've got a supernatural
loveAnd if you feel the way I do
And think that I make magic too
Then we'll disappear into eternity
