

# Hang On

## Lecrae

(Verse)

Look I don't know a con named Wes, no  
I'm tryin my best though  
And I don't know what all you went though  
But look at everything we been through  
Man, we got high together  
Went to the mall, got fly together  
Police came through tryna ask us questions  
Me and you sat there and lied together  
Tryna keep in touch, it got hard  
Had a couple kids, I felt bad  
Probably hurt or went off to school  
But never know I was snortin that raw  
Well I'm pain stabbed but not perfect  
I know it feel like it ain't worth it  
But you love dog and that's real talk  
Don't nobody wanna put you in the dirt man  
I know it's hard out here to get work  
Got 2 strikes to feel worthless  
But you was made for more than that drink and smoking  
Tryna ask the streets for your purpose  
You got your family here hurtin  
My brothers callin me, worried  
And me and yo daddy did the same thing  
He both left us out here struggling  
Heard they locked you up so I came through  
Forget what you did and what you ain't do  
It's times like this we play through  
Got a word to the God that made you  
Gotta hang on, hold strong  
Trust in the truth to bring you home  
I ain't tryna sit here and preach to you  
I'm tryna be the one you can lean on(Verse)  
Hospital folks to the last walk  
Let it be the past stops  
Showed me that we was bout to head to drop  
Pray to God he don't get cast off  
Head to the sky cuz I need some hope  
Kin folk just got caught with dope

Partner just called said his baby sick  
And this might be the end of my rope  
Man it's hard out here and I'm hurtin  
Don't need no choir girl flirtin  
Don't need no pastor tryna touch on kids telling me what I can't, way to judge it  
No fake cryin, a preacher lyin  
Sayin God don't love me if I don't top  
I need real him in a real season  
Meet real faith and a real Jesus  
I'm hanging on by a thread though  
Crazy thoughts in my head, woa  
Phoned my grandma on the payphone  
Before I end up dead or on death row  
Always do it, my friends know  
What I got to pretend for  
Free fallin, tryna hang on it  
Anything I can get my hands on
