

Don't Cost A Dime

Martina McBride

It's a big world to walk through, honey
And if you got love, you don't need money
You're gonna get caught in the toughest times
You hold each other and you hold a life
You kiss on the mornings when the sun won't shine
And that don't cost a dime
It's a big world to walk through, honey
If you got love, you don't need money
You can't get lost in the dollar signs
You take each night one day at a time
You live on water until it turns into wine
And that don't cost a dime
Come out of bed and step outside
Look up ahead it's all blue sky
You already have what really matters
Most in this life
It's a big world to walk through, honey
If you got love, you don't need money
You're gonna get caught in the toughest times
You hold each other and you hold a life
For what it's worth there's my advice
And that don't cost a dime
(Don't cost a dime)
And that don't cost a dime
(Don't cost a dime)
Yeah, love don't cost a dime
(Don't cost a dime)
Yeah, yeah
