I'm Not Dead Yet

For All Those Sleeping

slow down i just can't keep up,
with the rate that you're moving,
now we're moving,
deeper and deeper,
now we're falling,
faster and faster,
there's nothing left.

please wake me,
cause this surely can't be happening,
but the touch is so real,
the touch is so real,
i speak so clearly,
(i heard every word you said)
your words are so deadly,
but i'm not dead yet.

can't seem to hide,
what's inside,
can't seem to hide,
what's inside.

deeper and deeper,
now we're falling,
faster and faster,
there's nothing left.

please wake me,
cause this surely can't be happening,
but the touch is so real,
the touch is so real.
your words are so deadly,
(i heard every word you said)
your words are so deadly..

please wake me,
cause this surely can't be happening,
but the touch is so real,
the touch is so..

please wake me,
cause this surely can't be happening,
but the touch is so real,
the touch is so real,
your words are so deadly,
(i heard every word you said)
your words are so deadly,
but i'm not dead yet.
