

Turn On the Lights (Remix)

Jamaram

outside - yeah
waiting in line for the show today
so alive - yeah
I just can't wait to get out of the rain
we've been riding all our lives to get to this place
and now we're hiding with the boys in the backstage--- Chorus: 2x ---
feeling alright now
at the show tonight
it's got to be right now
so turn on the lights the time is getting closer and closer to play
my mind is going over some words to say
it's Friday and you're all set 'cause you got your pay
today is my day let's get it started boy I just can't wait--- Chorus: 2x ---
feeling alright now
at the show tonight
it's got to be right now
so turn on the lights get the load out of the back of the truck
put it on stage and unpack the stuff
the people that are coming are just coming for us
so you better drink up and cut out the fuss
soundcheck got it working and it's all hooked
up the lights are in position only waiting to to get hot
no turning back now give it a shot
gonna lay it down here on the spot--- Chorus: 2x ---
feeling alright now
at the show tonight
it's got to be right now
so turn on the lights
