Closed Words (Radio Edit, Bonus Track)

Human Cycle

Who will lead us now that you've gone
Who will make us stronger in this weak moment
Crying thoughts dive in our minds make us believe that
Someday we will be , we will say , finallyFree , Blind me , Save me from all your liesWet road , Empty room , fast steps climb the old stairs
Time to hide the deepest fear in our souls
Closed words dive in our minds make us believe thatSomeday we will be , we will say , finallyFree , Blind me , Save me from all your liesAll the things I've said , all the things I've done
Don't regreat a thing this made us so strongAll the things you've said , all the things you've done
Didn't call me a person you act so wrong
