

Closed Words (Radio Edit, Bonus Track)

Human Cycle

Who will lead us now that you've gone

Who will make us stronger in this weak moment

Crying thoughts dive in our minds make us believe that

Someday we will be , we will say , finallyFree , Blind me , Save me from all your liesWet road , Empty room ,
fast steps climb the old stairs

Time to hide the deepest fear in our souls

Closed words dive in our minds make us believe thatSomeday we will be , we will say , finallyFree , Blind me ,
Save me from all your liesAll the things I've said , all the things I've done

Don't regret a thing this made us so strongAll the things you've said , all the things you've done
Didn't call me a person you act so wrong
