

# Life Of The Party

## A Rocket To The Moon

If they're on you like a tattoo  
They're watching every move that you're making  
You're blue eyes were white lies  
I thought you were mine for the taking  
But you punch my lights out  
Now you're free to be  
The lonely life of the party  
Go, you'll see  
Let's get one thing straight  
You're gonna regret you left me  
Never shoulda told you that I fell in love  
'Cause you turned me right around  
And threw me down and now I can't get up  
You'll be sorry, just you wait and see  
But let's get one thing straight  
You're gonna regret you left me  
You puzzle like a jigsaw  
You love me, now we don't fit together  
I used up my last straw  
I thought I would drink you forever  
But now you're my last call  
Now you're free to be  
The lonely life of the party  
Go, you'll see  
Let's get one thing straight  
You're gonna regret you left me  
Never shoulda told you that I fell in love  
'Cause you turned me right around  
And threw me down and now I can't get up  
You'll be sorry, just you wait and see  
But let's get one thing straight  
You're gonna regret you left me  
I know why you set the trap  
I know why you dress in black  
Flies in your web tonight  
I know why you beat the rap  
Some day you'll be crawling back, crawling  
You'll be crawling back to me, yeah  
I never shoulda told you that I fell in love

'Cause you turned me right around  
And threw me down and now I can't get up  
You'll be sorry just you wait and see  
But let's get one thing straight  
Never shoulda told you that I fell in love  
'Cause you turned me right around  
And threw me down and now I can't get up  
You'll be sorry just you wait and see  
But let's get one thing straight  
You're gonna regret you left me  
Never shoulda told you that I fell in love  
'Cause you turned me right around  
And threw me down and now I can't get up  
You'll be sorry just you wait and see  
But let's get one thing straight  
You're gonna regret you left me
