

Just Chillin'

Craig David

I'm in the club tonight kicking back, just chillin'
Ain't no question that this pretty girl wanna be all up in it
I'm in the mood tonight to get it crunk alright, get my grind on yeah
Ain't no holding back cos it's a fact you're the girl, I'm feelin'
You look so sexy when you're dancing
When you dip it low then flip it back to front and
Ooh, I like the way you got your eyes on me
Maybe we could work it, don't stop what you're doing though
Maybe we can fly way up to the sky
Baby we can go anywhere you like
Baby we can move, ain't got nothing to lose
Girl, we can do this anyway you want it
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
All my fellas and my girls and
All my hustlers making money time to fall in
Ooh, you're so damn sexy want the world to know
This girl got me open ain't gon' front 'cos I like her so
Maybe we can fly way up to the sky
Baby we can go anywhere you like
Baby we can groove, ain't got nothing to lose
Girl we can do this anyway you want it
Oh girl, sexy to me
Oh girl, I love the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Uh, I know you like it girlfriend come on
As I watch you from across the bar, you shine girl
Ooh, it's something 'bout the way you move, do you feel me?
Makes a brother wanna slide up right up next to you, come on
Girl, you know this man's got his eyes on you
Temperature rise can you feel it too
When I look at you, don't wanna lose my cool
But baby, I can't help it
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me

Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
Oh girl, sexy to me
Oh girl, I like the way you work it, work it on me
So how we do? Come on
Just chillin', yeah
We out
