

# Family Ties

## Just a Band

Bet you didn't see this coming your way  
You can run you can hide but you know you can stay  
So move it move it everything's moving  
Nothing stays the same man  
No it's not a game man  
You can carry what you want  
I don't mind it if you do  
Onyesha uwezo so you can say what you want  
Cold but the fire is cold  
But the fire is coldIt's out of control it's taking too long  
So I am coming to own you  
I'm taking you home  
You better come on your own before I disown  
You know I'm coming to break the family ties  
I will find you and I will help you  
We can take it higher or go through the fire  
One way or the other these ties stay here like whoa  
There's no place to run from these family ties  
We can take it higher or go through the fire  
One way or the other these ties here like whoa  
You just catch me first when you know it's unstoppable  
You can quote the source for the source is reliable  
Don't kill the messenger run with the message  
No fuss in cancer damu haipasui  
Mambo yamechacha so run baby run  
Ukikimbiza mkia ujipaea ukilia  
Kushoto kulia kushoto kulia  
Kushoto kulia kushoto kuliaIt's out of control it's taking too long  
So I am coming to own you  
I'm taking you home  
You better come on your own before I disown
