

War Drum

Atomic Opera

There is no honor in this madness
You see the whites of my eyes
We will stand here, face to face
The war drum has led us here to fight War drum, lead me on
I hear the war drum
War drum, lead me on
I hear it in my head
War drum, lead me on
I hear the war drum
War drum, lead me on Sadness of pawns and their purpose
Wise men play us for control
The blood dries quickly on the war drum
And our love dies slowly in our soul War drum, lead me on
I hear the war drum
War drum, lead me on
I hear it in my head
War drum, lead me on
I hear the war drum
War drum, lead me on And as we stand under blue skies
This theatre of the unreal
I feel the pounding of my cold heart
I start to feel the hate to kill War drum, lead me on
I hear the war drum
War drum, lead me on
I hear it in my head
War drum, lead me on
I hear the war drum
War drum, lead me on
