

Dreams

Cady Groves

Could've been the lion queen,
Could've been the next James Dean
Could've been a mother of three by now, probably
Could've been Miss America,
Could've been a playboy sinful
Could've spend my way and go by now, probably
But all that I need will it don't cost a thing
'Cause dreaming is free and I'm living a dream,
and I'm feeling lucky!
Take it from me and it and up off your knees
Just be young and free, yeah you've got to let go 'cause you know there will be fine
Fine like whine, leave behind all the stuff that you bought 'cause it's time we have some fun
On the run, chase the one thing that don't cost a thing, got a pocket full of Dreams dreams dreams dreams
Dreams dreams dreams
No, it don't cost a thing, got a pocket full of Could've been an astronaut,
Could've been a part-time cop
Could've been something I'm not
I'm good, trust me 'cause
All that I need is some late night TV
With some ice and some cream, yeah Rose in the back 'round
Laugh with me
Take it from me and it and up off your knees
Just be young and free, yeah you've got to let go 'cause you know there will be fine
Fine like whine, leave behind all the stuff that you bought 'cause it's time we have some fun
On the run, chase the one thing that don't cost a thing, got a pocket full of Dreams dreams dreams dreams

See, everybody's got a dream
