Moonshine

Sara Haze

Mmm
Cars and stop signs
Streets that look like concrete rivers going nowhere
We?re surrounded lets surrender
Run away right into thin air
Boy take my hand let?s disappear too many city lights ?round here
Follow my heart into the trees under the stars
We can lose ourselves in the midnight
We can find our way in the sunrise
Grab a mason jar full of fireflies to be our light
Look in my eyes, you got the moon, I?ve got the shine
Oh, oooh
Now we?re dancing in the shadows
Feel the grass beneath bare feet
We can run out
To the boat house

Leave a trail of kisses in the weeds
Boy take my hand let?s disappear too many city lights ?round here
Follow my heart into the trees under the stars
We can lose ourselves in the midnight
We can find our way in the sunrise
Grab a mason jar full of fireflies to be our light
Look in my eyes, you got the moon, I?ve got the shine
Oh, oooh
You?ve got the moon and I?ve got the shine
You?ve got the how and I?ve got the why
We got the love and we got our lives
To lose ourselves in the midnight
We can find our way in the sunrise
Grab a mason jar full of fireflies to be our light
Look in my eyes, you got the moon, I?ve got the shine
Oh, oooh
