

Beautiful (Live at iTunes Festival 2011)

Moby

Come on baby
Come on girl
Come on baby
Come on girl I love you baby
I love you now
I love you baby
I love you now Look at us, we're beautiful
All the people push and pull
But let's just go out and ride
Talk about the things we try Look at us, we're beautiful
All the people push and pull but
They'll never get inside
We've got too much to hide Come on baby
Come on girl
Come on baby
Come on girl I love you baby
I love you now
I love you baby
I love you now Look at us, we're beautiful
All the people push and pull but
Let's just go out and ride
Talk about the things we try Look at us, we're beautiful
All the people push and pull but
They'll never get inside
We've got too much to hide Look at us, we're beautiful
All the people push and pull but
Let's just go out and ride
Talk about the things we try Look at us, we're beautiful
All the people push and pull but
They'll never get inside
We've got too much to hide Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful
Look at us we're beautiful yeah Look at us we're beautiful yeah
