

Who Cares?

Gnarls Barkley

Basically, I'm complicated
I have a hard time taking the easy way
I wouldn't call it schizophrenia
But I'll be at least two people today
If that's okay And I can go on and on and on
But who cares? It's deep how you can be so shallow
And I'm afraid 'cause I have no fear
And I didn't believe in magic
Until I watched you disappear
I wish you were here And I can go on and on and on
But who cares? You see, everybody is somebody
But nobody wants to be themselves
And if I ever wanted to understand me
I'll have to talk to someone else
'Cause every little bit helps And I can go on and on and on
But who cares? It feels like the surreal life
But it's still nice, wish I could live twice
And I still might, if these wounds heal right
I see a little light even though it's still night It feels like the surreal like
But it's still nice, wish I could live twice
And I still might, if these wounds heal right
I see a little light even though it's still night And I can go on and on and on
But who cares? And I can go on and on and on
But who cares?
