

Worlds Away

Blood on the Dance Floor

I'm walking down a lonely road
One that I've never known
I hope it leads me home Sometimes I feel so far away
Can't find the words to say
I'm exiled on my own Give me something to believe I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home I look to the sky right over me
Hoping you see the stars I see
It makes me feel less alone There's never one place that I can stay
Sorry my world's so far away
One day I promise I'll be home Give me something to believe I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home I need someone to take my hand
I need someone to understand
I'm standing on the edge
And I'm looking down I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home Tryin' to find my way home
Tryin' to find my way home
Tryin' to find my way back home
