

Joyride

Oleander

You've got to get it to give away
You've got to give it to get away
You've got to get it to give away
You've got to give it to get away Outside, feeling kind of faded
Inside, I'm holding conversations You've got to give it to get away
You've got to get it to give away
You've got to give it to get away
You've got to get it to give away You've got to get some
Come on and get some
You wanna get some?
Come on and get it then Landslide, coming up behind you
Oh joyride, hope they never find you You've got to get it to give away
You've got to give it to get away
You've got to get it to give away
You've got to get it to give away You've got to get some
Come on and get some
You know you want some
Come on and get it then You've got to get it to give away
You've got to give it to get away
You've got to get it to give away
You've got to give it to get away Get it to give away
Give it to get away
Get it to give away
Give it to get away Get it, get it
Get it, get it
Get it, get it
