

Always There

[Kate Alexa](#)

Why was it you I don't understand
And nothing shows me why
Maybe someday I'll see you again
And tell you how much I've missed you Things happen and no one knows why
If I'd erased this moment in time
If I'd know I'd be by your side
If I'd known I would've said goodbye You were always there
Even though it seems you're far away
I miss you more than words
I'm missing you more everyday Where are you in my life?
Where's the song in my heart?
Where's the peace of my mind
And the strength for me to carry on? We will all move on
And you will always stay in our heart
And any minute that passes by
We won't let the memory fade away
Time will heal a little everyday You were always there
Even though it seems you're far away
I miss you more than words
I'm missing you more everyday Where are you in my life?
Where's the song in my heart?
Where's the peace of my mind
And the strength for me to carry on? Then the something's fade to nothing
And the reasons gone
Life must go on, days will pass by
Tears will find happy memories You were always there
Even though it seems you're far away
I miss you more than words
I'm missing you more everyday Where are you in my life?
Where's the song in my heart?
Where's the peace of my mind
And the strength for me to carry on?
