

# I Wanna Be (feat. Chris Lorenzo)

**Katy B**

[Verse 1]

I got a funny feeling in my heart, I really wanna tell you  
I didn't seem to see it at the start but now I wanna tell you

I wanna tell you but I'm just too worried

I thin I got just enough Dutch courage tonight

It's like a hurricane[Chorus]

Tell me baby, maybe you might

I wanna be with you, taking me higher

I wanna be in your arms

I wanna be where my dreams transpire

Don't leave me here in the dark

Tell me baby, maybe you might

I wanna be with you, taking me higher

I wanna be in your arms

I wanna be where my dreams transpire

Don't leave me here in the dark[Instrumental Breakdown]

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be

I wanna be, I wanna be
