

Everywhere

Polaris

I put your photograph away
I can't look at you today
I put your letters upstairs
But it's no good because you're everywhere

I can try to hide,
But why waste my time?

You left your glasses behind
And somebody said you were doing fine
I play a game, but you're not there
But it's no good, because you're everywhere

I can try to hide,
But why waste my time?
Center round of you
Everything I do says you're everywhere
Everywhere

I hear a song that you sang
It hits my head like a circus train
I cried out when you were there
You were there because you're everywhere

I can try to hide
But why waste my time?
Center round of you,
everything I do
I can try to hide
But why waste my time?
Center round in me,
Everything I see says you're everywhere
Everywhere
Everywhere
Everywhere
