

Don't You Know

Billy Thorpe & The Aztecs

I woke up this morning
My world was lookin' fine
I took a little walk
To see this girl of mine
As I turned the corner
I saw them hand in hand
I walked right up to her and said
Don't you understand Don't you know, don't you know
That I'm in love with you
Don't you know, don't you know
That no-one else will do
You've really got to see
That you're the one for me
Don't you know, don't you know, don't you know
That you're the one for me
She looked at me and said
Don't you know that we are through
I turned away to go
There's nothin' I can do
Wherever she may go
Wherever she may be
I hope that she remembers
These words that came from me Don't you know, don't you know
That I'm in love with you
Don't you know, don't you know
That no-one else will do
You've really got to see
That you're the one for me
Don't you know, don't you know don't you know
That you're the one for me Oh play it now Vince
She looked at me and said
Don't you know that we are through
I turned away to go
There's nothin' I can do
Wherever she may go
Wherever she may be
I hope that she remembers
These words that came from me Don't you know, don't you know
That I'm in love with you

Don't you know don't you know
That no-one else will do
You've really got to see
That you're the one for me
Don't you know, don't you know don't you know
That you're the one for me You've really got to see
That you're the one for me
Don't you know, don't you know, don't you know
That you're the one for me
