

# Strange

[Tori Amos](#)

Strange  
Thought I knew you well  
Thought I had read the sky  
Thought I had read a change  
In your eyes So strange  
Woke up to a world  
That I am not a part  
Except when I can play  
Its stranger After all what were you really looking for  
And I wonder when will I learn strange  
Blue isn't red everybody knows this  
And I wonder when will I learn, when will I learn Guess I was in deeper than  
I thought I was  
If I have enough love  
For the both of us Just stay you said, we'll build a nest  
So I left my life tried on your friends  
Tried on your opinions  
So when the bridges froze  
And you did not come home  
I put our snowflake under a microscope After all what was I really looking for  
And I wonder when will I learn  
Maybe my wish knew better than I did  
And I wonder when will I learn, when will I learn Guess I was in deeper than  
I thought I was  
If I have enough love  
For the both of us So strange now I'm finally in  
The party has begun  
It's not like  
I can't feel you still But strange  
What I will leave behind  
You call me one more time  
But now I must be leaving
