

# One By One (2003 Version)

## Unkle Bob

One by One  
I suffer you gladly  
One by One  
You're all I don't need And you couldn't see,  
The wood from the tree  
You're eyes are unkind,  
So don't look at me.  
And all that you know  
Is written in stone One by One  
I suffer you badly,  
One by One  
You're all I don't need And life on the road,  
It makes you feel old,  
Remember the time when friends were around,  
When friends were around  
\*\*\* when we were all friends\*\*\* Is this the way to be?  
Is this the way to be? One by One  
One by One
