

# Until (Extended Wedding Version)

## Derric Gobourne Jr.

Iâ€™ve always wondered why  
You stuck right by my side  
And Iâ€™ve been so unkind to you  
I know I broke your heart in two  
But youâ€™ve shown undying love  
Kinda love that not humanly possible  
If angels from God has been sent to me  
And Iâ€™ll be loving you until my life is through  
Ou wee, yeah  
Until the stars fall from the sky  
Until the truth becomes a lie  
Girl thatâ€™s how long our love will last  
Until my days on earth have passed  
Just call my name girl Iâ€™ll be there  
Like the clothes you wear  
Like the breeze in your hair  
My love for you will never die  
Just multiply  
Girl through your heart a river flows  
Feelings of joy only I can know  
But I donâ€™t deserve to be the one  
But Iâ€™ll give your love till my day is done  
And you look into my eyes  
And fell deep inside my emotions canâ€™t hide  
What a wonderful love girl you give to me  
My whole body starts to sing  
Of the finger she wears my ring  
Itâ€™s the truth  
Until the stars fall from the sky  
Until the truth becomes a lie  
Girl thatâ€™s how long our love will last  
Until my days on earth have passed  
Just call my name girl Iâ€™ll be there  
Like the clothes you wear  
Like the breeze in your hair  
My love for you will never die  
Just multiply  
[Jazz Break]  
Baby!

Until the stars fall from the sky (Baby! Baby!)  
Until the truth becomes a lie (Baby!)  
Girl thatâ€™s how long our love will last (thatâ€™s how long, thatâ€™s how long!)  
Until my days on earth have passed (Ou!)  
Just call my name girl Iâ€™ll be there (call my name baby, call my name!)  
Like the clothes you wear (yeah!)  
Like the breeze in your hair (da da da)  
My love for you will never die (Never gonna die!)

Just multiply  
Until the stars fall from the sky  
Until the truth becomes a lie  
Girl thatâ€™s how long our love will last  
Until my days on earth have passed  
Just call my name girl Iâ€™ll be there  
Like the clothes you wear  
Like the breeze in your hair  
My love for you will never die  
Just multiply
