New Day

Marie Hines

Got a pep in my step and I'm tripping my way into
Happy ever afterI'm kickin up heels,
Trying a brand new danceI'm a sunny soul, watch the day unfold, as I
Decorate with laughterSo I'm letting go,
I'm taking my fighting chanceI'm taking my fighting chanceIt's a brand new day
I won't falter, hesitate
It's the great escape
I thought I'd never find
When it fades away
I won't get caught in yesterday
But get carried away
Cause it's a new dayThere's a tune on my tongue and a song to be sung
It's my own little creationGot a pit-pit-patter and my
Heart's skipping faster with timeSo I'm tappin toes, all aglow
With little reservationI'm finding myself
Coloring outside the linesI'm coloring out of lineIt's a brand new day
I won't falter, hesitate
It's the great escape
I thought I'd never find
When it fades away
I won't get caught in yesterday
But get carried away
Cause it's a new day
