Find A Way

Dwele

It used to be, we would be the best of all friends
It turned to be L O V E and I was your man
So you was my lady-friend, we spent time
I found a way to be by your side
Through the ins and outs, the wrongs and rightsAfter a while of bein' settled down, I didn't know how to keep the love
'Cuz I was young, I wish I knew then what I know now
I wouldn't let you go, I swear I would've made this love grow
I spent a lot of time and a lot of dough
Tryin' to match what we had and now I, II was hopin' we could find a way
To have what we had again today
Though it's been some time since you and I
It wouldn't hurt to try to find our loveWish that I would have known the treasures I'd found
I didn't know until you left, I loved your smile
Just the other day your girl said that you can't stand me
I know you don't mean that
Can't we just slow down a minute and talk it out?I've been through my share of love since then
Don't know about what you've been through
But nothin' compares to what we had
All I know is I need you back and I know that you need me back
Baby, let's try again to find our loveI was hopin' we could find a way
To have what we had again today
Though it's been some time since you and I
It wouldn't hurt to try to find our loveI was hopin' we could find a way
To have what we had again today
Though it's been some time since you and I
It wouldn't hurt to try to find our loveI can't forget the times we shared
Didn't know love until love was gone
'Til I moved on
Now I'm right back to square one againI was hopin' we could find a way
To have what we had again today
Though it's been some time since you and I
It wouldn't hurt to try to find our loveI was hopin' we could find a way
To have what we had again today
Though it's been some time since you and I
It wouldn't hurt to try to find our loveFind our love, baby
Find our love, baby
