

# Believe

## Blood On the Dance Floor

Believe in me, When you feel like you're losing all your hopes and dreams

Believe in me, When I am gone you gotta keep a smile on

Believe in me, Goodbye my friends; Just celebrate the times we spent

Believe in me, We all die; It's an awfully big adventure

Believe in me, When I'm gone...

We all fall down, but we'll pick you up

We all fall down, but we'll pick you up

Believe in me, Just keep your faith and believe in all that you make

Believe in me, My love is not a gamble; You can count on me

Believe in me, No lies, Just love, I will be pure just like the sun

Believe in me, When you are down I will lift you up from the ground

Believe in me, When I'm gone...

We all fall down, but we'll pick you up

We all fall down, but we'll pick you up

If you're afraid of death

It'll come at you at the speed of light

Only if you're not afraid of death

It will cast its shadowy eyes upon you

And guide you into the eternal, infinity

Believe in me, When I'm gone...

We all fall down, but we'll pick you up

We all fall down, but we'll pick you up

I love you
