

# The Other Side (feat. Wayne Jackson)

[Paul van Dyk](#)

When this broken through  
I will comfort you  
When I wake my tongue is tied  
Daylight brings the great divide Weeping like the rain  
Whispering your name  
Long to be reunified  
Believe the sun will rise  
When I reach the light  
I will see you on the other side I'm sure the sun will shine  
When I reach the light  
I will see you on the other side See you on the other side  
When I close my eyes  
See you on the other side  
When I close my eyes See you on the other side  
When I close my eyes  
See you on the other side  
When I close my eyes Speeding City lights  
Leave me weak tonight  
Oh I miss your warmth inside  
Stars came out to shine  
Across the waterline  
I can feel you on the other side See you on the other side  
When I close my eyes and I reach the light  
See you on the other side  
When I close my eyes See you on the other side  
When I close my eyes and I reach the light See you on the other side  
When I closed my eyes
