Say Goodnight

Gemini Syndrome

It's time to say goodnight to the nightmare
As it gently falls asleep

Another restless night
Another showplace in my head
It seems to never end
Another hopeless plight
Another cold and empty bed
And a sonnet to the dead
How can I live this lie again?

Is it time to say goodnight to the nightmare
As it gently falls asleep? (Gently falls asleep)
Is it time to say goodbye to the demons
And the skeletons within?
Sweet dreams

Another go around
The clock just waves its hands at me
It's the only thing I see
Just one more time around
And still no promise of relief
I don't think I'll ever sleep
How can I face another day?
Will I ever be okay?

Is it time to say goodnight to the nightmare
As it gently falls asleep? (Gently falls asleep)
Is it time to say goodbye to the demons
And the skeletons within?
Sweet dreams
Sweet dreams

As I close my eyes
I feel sweet release

Is it time to say goodnight to the nightmare
As it gently falls asleep? (Gently falls asleep)
Is it time to say goodbye to the demons
And the skeletons within?

Sweet dreams
Sweet dreams

It's time to say goodnight
