Take The Test

When it comes, the time
That you have recognized your line
And you realize the path
That you will travel through your lifeBe sure that what you want
Is exactly what you're trying to get
Or you'll be speeding toward
A cliff without realizing thatBefore you know the haze makes you slow
And ignore your future, forget your past
Before you know, cars start to crashThere are so many choices
The opportunities abound
Just to be sure to keep things straight
And be sure to stand your groundLet nothing shade your vision
Even fight to keep it clear
Let no one change what's right for you
For when you start to veerBefore you know, the haze makes you slow
And ignore your future, forget your past
Before you know, cars start to crashBefore you know, the haze makes you slow
And ignore your future, forget your past
Before you know, cars start to crashBefore you know, the haze makes you slow
And ignore your future, forget your past
Before you know, cars start to crash
