Friends

The Wannadies

we go - to places
where everything feels amazing
no need to pretend
we know we're good friends
and that's the way it should be
then it's over
a beautiful girl absorbed you
for you it's a game
and I'm in your way
I have to make sure - I'm not ignored
I want you to know that I could break your motorbike
the one you like
I want you to see how much I mean to you
it's you and me - right - friends
now you're sober
did you really have to show her
your talent and charm
you push me too far
it's not the way it should be
blown to pieces
feels like you're a different species
it's always the same
you play all these games
I have to make sure, I'm not igored
I want you to know that I could break your motorbike
I know you like it
I want you to see how much I mean to you
it's you and me - right - friends
