

Fire It Up!

VenueConnection

If life is just a party
Then we cookin'™ up this groove
Feel it gettin'™ started
As it takes control of you

Fish got to swim
And birds got to fly
This groove is gonna make you move
Without asking you why

Fire it up, feel the rhythm
Fire it up, feel the groove
Fire it up, move your body
Fire it up, that's™ all you need to do

There's™ fire in your body
There's™ fire in this room
There's™ fire in your spirit
That burns but not consumes

There's™ nothing wrong with feeling right
And this may sound insane
Fire up your life's™ light
And dance with the flame, dance with the flame

Fire it up, feel the rhythm
Fire it up, feel the groove
Fire it up, move your body
Fire it up, that's™ all you need to do
