

Freedom (feat. Jussie Smollett)

Empire Cast

I wanna love somebody, everybody
Can't nobody tell me how to love
I wanna touch on somebody, gimme body
Everybody calls it love or lust
I call it

Freedom
Grab someone you want
Freedom
Dancing in the dark
Freedom
Can you feel the rush?
It's called freedom, freedom

It's a new generation, welcome to modern love
It's a revolution, do what we want just because
I got a brand new perspective
I don't really give a damn who knows
So put your hands on my Versace
Cause I wanna feel you up under my clothes

I wanna love somebody, everybody
Can't nobody tell me how to love
I wanna touch, oh, somebody, gimme body
Everybody calls it love or lust
I call it

Freedom
Grab someone you want
Singin' freedom
Dancing in the dark
Freedom
Can you feel the rush?
It's called freedom, freedom
Come get you some
Anything you want
Pick it up, pick it up

I'ma be honest, I'm lovin' this feelin' I found
I'm youg and I'm fun if you 'bout it I'll take you downtown

No disrespect but I bet I can make you proud
So come and take a seat in my new Panamera
Don't mind if I show you around
