Cannons and Clouds

[rock music] Welcome home. It's been too long. Don't hang her low. Let faith decide. Your heart is home. Stories untold. We heal our hearts. It's all our call. We walk our line. We turn the lights upside down. Inside out. [rock music] When love's all gone. Water under. It is mine. Winds away. We walk our line. We turn the lights upside down. Inside out. We walk our line. We turn the lights upside down. Inside out. [rock music]
