Rest My Lips

Gary Taylor

How do I compose my thoughts
where do I begin
knowing what I know about myself
this could be the end

Never has a human face
cut so deep into my heart
baby this fear running through my mind
is what is keeping us apart
I don't wanna go there baby

I don't wanna chase you away
and I don't want you to think less of me
holding back can be a big mistake
and the pressure keeps on building

(we don't have to kiss)
We don't have to kiss
(I just wanna rest my lips on your lips)
I just wanna rest my lips, I just wanna rest my lips
(we don't have to touch at all)
(I just want to stand here close to you)
I wanna be close to you yes I do baby
(we don't have to kiss)
we don't have to
(I just wanna rest my lips on your lips)
I just wanna rest my, I just wanna rest my
(we don't have to touch at all)
(I just want to be right here with you)
wanna be here with you

Now that we're all alone
should I take the fall
should I try to pass it off as something else
or face the fact that I, I want it all baby
I could only ask of you
what I hope you want from me
I want you
I want you to want me baby
From this moment when passion calls

I'm slave of what's to be, yes I am
I'm your slave forever

I don't wanna chase you away
and I don't want you to think less of me
holding back can be a big mistake
and the pressure keeps on building

(we don't have to kiss)
We don't have to
(I just wanna rest my lips on your lips)
I just wanna rest my lips, I just wanna rest my lips
that's what I want to do with you
(we don't have to touch at all)
(I just want to stand here close to you)
Put my arms around you baby
(we don't have to kiss)
(I just wanna rest my lips on your lips)
I just wanna rest my, I just wanna rest my
(we don't have to touch at all) no we don't baby
(I just want to be right here with you)
I wanna be with you
Girl (we don't have to kiss)
We don't have to kiss
(I just wanna rest my lips on your lips)
Now that your problem's solved baby
(we don't have to touch at all)
Now that you're all alone
(I just wanna rest my lips on your lips)
